“Another way for working and communications”

## Working Trend in Post Covid-19 Pandemic

The COVID-19 pandemic and the resulting stay-at-home orders have led to significant changes in the way people work. One of these changes involves increased use of video conferencing as a means of communicating or holding work meetings (e.g., Zoom, Microsoft Teams, Google Meet, GoToMeeting, Skype for Business) in education, medicine, and business meetings. KONZESYS has combined existed products to provide step-by-step, extendable, and comprehensive solutions to the market.

## Virtual and Small Conference Room

This structure is to utilize the most common conferencing software and a USB camera to set up a room for a small group or branch. However, a videoconferencing system also can provide users to practice online meeting. Besides, if live streaming is required, users can install a live streaming software to the same computer of laptop. Then, one PC/Laptop will do all jobs without any other hardware systems.
